MEMORANDUM FOR: [redacted] C/TSS/APD/OB 25X1

SUBJECT: [redacted] Contract 25X1

1. The following recommendations apply to those items of equipment being developed for PIC by TSS under [redacted] 25X1

a. High-Tilt Rectifier: There has been discussion of the possibility of either valving the easels on the Rectifier or providing a film and paper casette for use with roll materials on the easels. Also discussed were the possibiligies of providing the easels with rails and clamps to support material on the easels.

As of this date there is no change recommended for the easels as [redacted] intends to furnish them. None of the above noted changes is recommended by PIC. 25X1

b. Large Light Table Scanning Stereoscope: It is recommended that Option I be accepted for these instruments. This should provide us with the most trouble-free system. No other changes are recommended.

c. Tri-Power Scanning Stereomicroscope: It is recommended that this instrument be accepted as is, without further changes.
